

20. (Newly Added) The method of claim 18 in which step (b) includes converting each of the signals received in step (a) using a sigma-delta modulator.

21. (Newly Added) The method of claim 18 in which step (c) includes amplifying each of the converted digital I and Q signals, and synthesizing the amplified I and Q signals prior to the transmitting step (d).

22. (Newly Added) The method of claim 18 in which the quadrature modulator includes two integrators, each of at least a second order, and step (c) includes integrating each of the converted digital I and Q signals using a respective second order integrator.

Respectfully Submitted,

Allan Ratner, Reg. No. 19,717
Jack J. Jankovitz, Reg. No. 42,690
